

PARASOLEIL ECLIPSE SERIES™ 2.0

Modular Shade System

**Engineered for Performance.
Designed for Impact. Ready to Specify.**

The newly redesigned modular shade system redefines outdoor comfort and aesthetics. Say goodbye to bulky, heat-trapping structures. Our innovative 12' x 15' modular system breathes, transforming open spaces into inviting, high-performance environments that are as beautiful as they are functional.

The Eclipse Series™ 2.0 delivers exactly what commercial projects demand: unparalleled engineered performance, flexible layout options, and the distinctive visual artistry only Parasoleil patterned panels can provide. This shade system is built to satisfy the needs of architects, landscape designers, and general contractors alike—all without the typical custom lead time or complexity.

Smarter Shade Starts Here

Why Eclipse is the Modern Standard for Outdoor Design

FOR ARCHITECTS & DESIGNERS

- Clean, modern structure with hidden fasteners
- Over 100 patterned panel options to bring design vision to life
- Filters light while maintaining airflow—creating comfort without enclosure
- Seamless fit for rooftops, courtyards, and public-facing spaces
- Pre-engineered and hurricane-rated to meet code with confidence

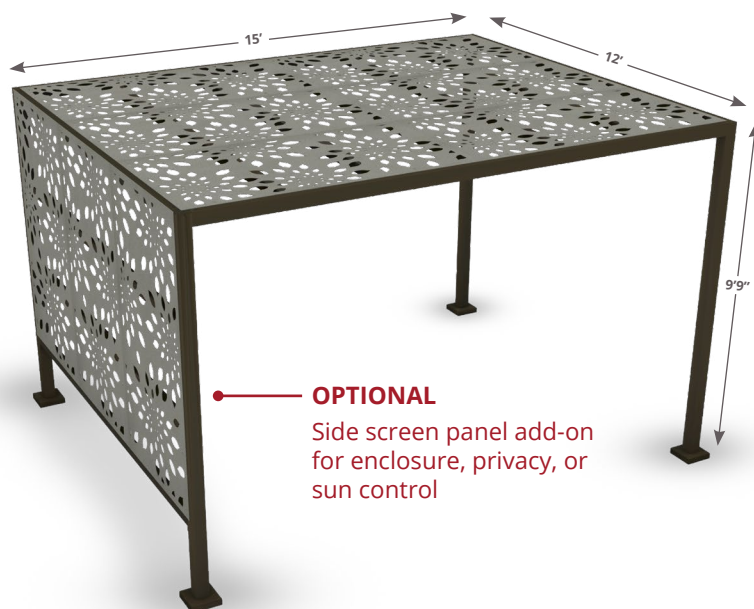

FOR GENERAL CONTRACTORS

- All-aluminum frames are lightweight and corrosion resistant
- Pre-drilled and ready to assemble—no cutting, welding, or on-site finishing
- Labeled components with installation guides make setup intuitive
- Optional side screens and electrical cutouts to meet project needs

Specify with Confidence

Parasoleil's patterned panels allow air to circulate, soften the light, and evoke the comfort of sitting beneath a shade tree—without compromising structural integrity. Eclipse Shade Systems create shade that enhances the space, not enclosing it.

You get a design-forward solution that installs like a kit, meets strict engineering standards, and delivers a beautiful, breathable space where people want to be.

It's everything shade should be. And it's ready to go.

Need more coverage? A 12' x 20' non-modular version is also available.
