

THE ENHANCED LUNAR SCREEN SYSTEM

Now Featuring Precision-Engineered Solution

The Lunar Screen System has been thoughtfully upgraded with a refined structural approach using extruded aluminum posts and mechanically fastened base plates. This complete architectural solution is ideal for commercial exteriors and rooftop equipment enclosures—offering long-term durability, elevated performance, and seamless specification.

The Upgraded Post System

INCREASED PERFORMANCE RATINGS

The upgraded post design supports higher pressure ratings with mechanically fastened connections that deliver consistency and strength.

- Up to 96" Post: Rated up to 60 PSF
- 120" Post: Rated up to 31 PSF

Expanded load capacity allows for confident use across a wider range of screen heights and site conditions.

IMPROVED LONG-TERM DURABILITY

Each base plate is separated from the mounting surface by a $\frac{3}{4}$ " isolator, helping to minimize galvanic interaction and extend the life of the system—especially in exposed or coastal environments.

FLEXIBLE, MODULAR DESIGN

The screen system is available in three standard sizes - up to 72", 96", and 120" - with versatile mounting configurations and a wide range of finishes - making it easier than ever to specify.

Greater project efficiency with a streamlined design that enhances coordination, accelerates installation, and improves workflow across trades.

SYSTEM COMPONENTS

Designed for easy installation, the Lunar Screen System offers a comprehensive architectural solution for screening, fencing, and ventilated commercial spaces.

Patterned Panels

Over 100 artistic patterns in 5000 Series aluminum

Super Durable Finishes

Architectural-grade AAMA 2604 powder coats

Extruded Post Structure

6000 Series extruded aluminum posts with mechanically bolted base plates and 3/4" HPDE spacer

Turnkey System

Performance-rated, pre-drilled, ready-to-assemble framing and hardware—no onsite welding, cutting, or finishing required

IDEAL FOR:

*Screening – Fencing
Equipment Concealment – Rooftop Enclosures*
